

## Village Island and B&M Announce Strategic Partnership to Expand Innovation in Video and IP Solutions

**Tokyo, JAPAN / San Jose, USA, March 3<sup>rd</sup>, 2025** – Village Island Co., Ltd. (VI) and B&M VIDEO TECH, LLC. (B&M) announce a strategic partnership to advance video and IP technology solutions, leveraging their combined expertise to deliver cutting-edge broadcast solutions to the global market.

B&M is a leading video processing equipment company based in San Jose, California, with a state-of-the-art factory in Guangzhou, China. It has been a trusted partner in manufacturing Village Island's [VICO](#) hardware products. Building on this successful collaboration, **VI and B&M are now entering a new phase of cooperation, focusing on the co-development and commercialization of next-generation ST-2110 and JPEG-XS products for the video industry.**

**As part of this strategic agreement, Village Island will also become a global distributor for B&M's innovative [video delay lines](#) and other appliances.** This distribution agreement will enable broadcasters and system integrators worldwide to access B&M's high-quality products with the exceptional service and expertise of Village Island.

*"By strengthening our collaboration with B&M, we are not only enhancing our product portfolio but also ensuring the availability of innovative, high-performance solutions tailored to the evolving needs of the video industry," said **Michael Van Dorpe, CEO of Village Island.** "This partnership reinforces our commitment to delivering cutting-edge, cost-effective solutions to broadcasters and media professionals worldwide."*

B&M has a strong record in appliance manufacturing and video processing technologies, making it an ideal partner for Village Island. *"We are excited to deepen our collaboration with Village Island, a company with an extensive distribution network and a strong reputation in Asia and beyond," said **Violet Wang, General Manager of B&M.** "Together, we aim to accelerate innovation and provide customers with superior solutions for video and IP workflows."*

This strategic partnership positions both companies to drive technological advancements and expand their reach in the broadcast and media industry. By combining B&M's expertise in hardware manufacturing with Village Island's leadership in broadcast technology solutions and distribution, the collaboration promises to bring new levels of efficiency, reliability, and performance to the industry.

**Industry professionals can explore the new joint solutions at [NABSHOW 2025](#), April 5-9 Las Vegas, booth# W3856 where both Village Island and B&M will showcase their latest innovations in ST-2110 and JPEG-XS technology.**
